

## **ONE-DAY SEMINAR ON CE-MARKING: FROM THE DESIGN TO THE DECLARATION OF CONFORMITY**

### **(Norboat & Sjøfartsdirektoratet)**

The NMA is observing a high number of no-conformities with the CE marking requirements in the recreational craft industry, indicating systematic deficiencies in the industry. These deficiencies are causing significant problems for the boat manufacturers, which are not easy to solve and are showing a need to improve the CE-marking procedures in the industry.

By affixing the CE marking to a product, a manufacturer declares that the product meets all the legal requirements for CE marking and can be sold throughout the EEA. Norboat, with this seminar, wants to provide the industry with tools to implement and develop successful compliance strategies.
